e-Governance, to serve citizens better.

ABOUT PUNE

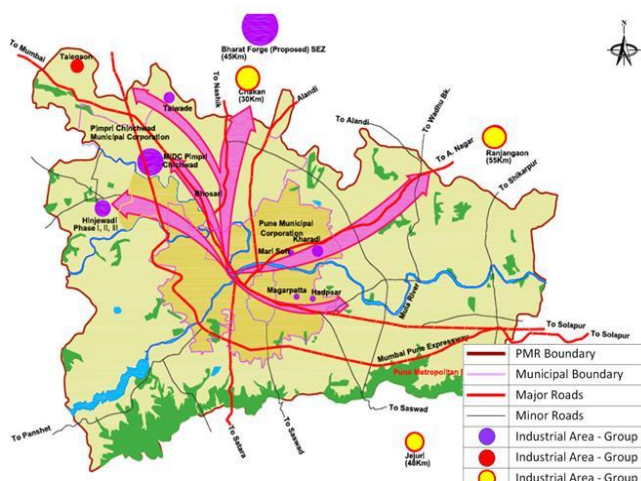

INTRODUCTION

Pune has emerged as a prominent location for manufacturing industries, and has now been recognized as the information technology hub and education hub of the country. The city is spread over an area of 250.56 Sq. Km with a population of over 3 million. The rapid growth of the city has transformed from its character as Pensioner's city to Educational – Administrative Centre and now to a bustling economic centre. The city is famous as the *Oxford of the East* and *the cultural capital* of Maharashtra. Pune is also one of the most favoured places among tourists coming to Maharashtra. The educational institutions, presence of a number of industries and branches of virtually every array have made Pune a prosperous city.

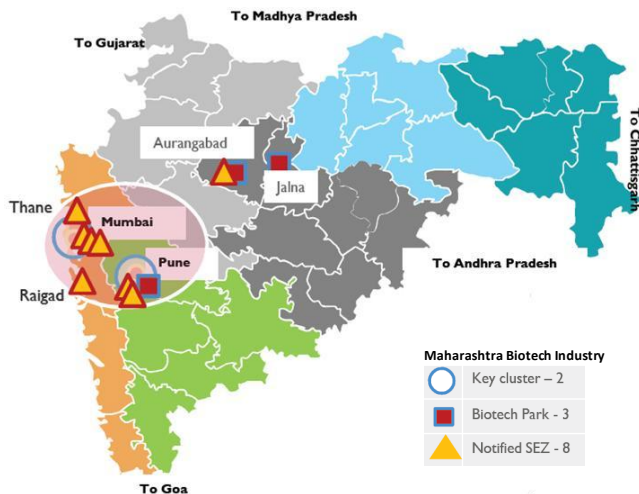

Economic Growth Drivers Sectors:

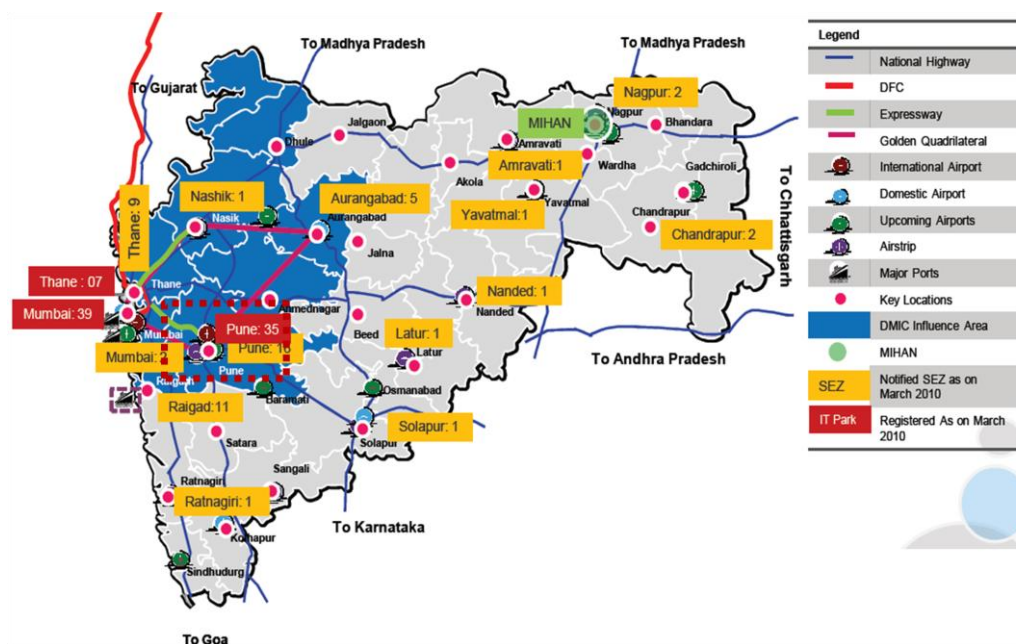

Pune witnessed the change of economy through the new economic policies which reflects the expansion of Information Technology sectors in late nineties. Large scales IT parks are established at Hinjewadi, Talawade, Kharadi and Hadapsar in 1999, Infotech Park was set up at Hinjewadi - IT city.

The growth of PMC is driven by various industrial segments. Presently, except Kharadi Knowledge Park, which is located within PMC limits, all other industries are located outside PMC in PMR or close to PMR towards North-West, North and North-East.

Maharashtra is the top contributor with 35.04% share of the total Biotech revenue of India. Mumbai and Pune are the two major clusters for Biotechnology. Pune contributes 13% of Maharashtra biotech revenues and 6% of overall India Biotech Industry.

Potential Growth Zones:

- Export-oriented Industrial Units/ SEZ
- Augmentation of Existing Industrial Estates
- Integrated Agro/Food Processing Zone
- Knowledge Hub/Skill Development Centre
- Integrated Logistics Hub
- Integrated Township
- Feeder Road Links
- Tourism Development

PUNE CITY AND ITS REGION ARE ONE OF THE MOST ATTRACTIVE INVESTMENT HUBS OF THE STATE THIS FACTOR IS REINFORCED BY ITS FALLING UNDER THE DMIC PROJECT INFLUENCE AREA

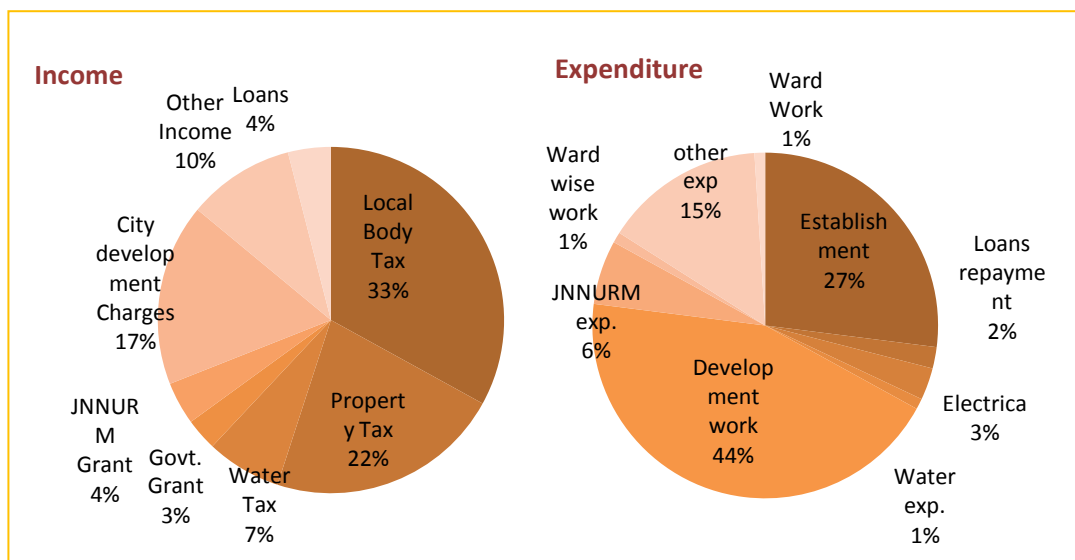

ABOUT PUNE MUNICIPAL CORPORATION

Pune Municipal Corporation (PMC) was established in 1950 under Bombay Provisional Municipal Corporation Act (BMPC) Act, 1949. Pune city is divided into 4 main zones and further sub-divided into 15 administrative wards as given below. Pune city administration of 15 wards is further divided into 76 'prabhags' classified into two groups namely 'A' and 'B' with a total number of 152 councillors (Nagar Sevak).

General Information of Pune Municipal Corporation		
1	Establishment of PMC	15 th February 1950
2	Class of Corporation	"A" Class Municipal Corporation
3	Prabhags Number	76
4	Elected Members	152 + 5 (Nominated)
5	No. of PMC Employee	17339
6	Length of River within Pune city	Total 37 km (22 km Mula River & 15 km Mutha River)
Demographic Profile (Pune City)		
1	Population (2011)	31,24,458
2	Area	250.56 Sq km
3	Population Density	12470 ppl per sq km
4	Literacy Rate	79.89%
5	Sex Ratio	948
Economic Profile (PMC)		
1	Budget (2015-16)	Rs. 4479.50 Crores
2	Establishment Expenditure	27%
3	Capital Expenditure	52%

4	Other Expenditures	21%

13	Hadapsar	12339
14	Dhankawadi	1134
15	Kondhwa-Wanorie	1922
	Total shortage in sanitary latrines	92618

Swachh Bharat Mission, launched on 2nd October 2014 at Rajghat, New Delhi, is India's biggest ever cleanliness drive. The basic objective behind Swachh Bharat Mission is to create sanitation facilities for all and eliminate completely the unhealthy practice of responding to the nature's call in the open.

Pune Municipal Corporation has taken initiative for transforming the city into city of the future and also aims to make Pune garbage free and open defecation free by adopting various sanitation models.

Model 1: Shwaas: Slum Sanitation & Health Welfare Advanced

Approach System Keeping in lines with achieving the aims of the City Sanitation Plan, PMC proposed to develop sustainable urban sanitation facilities for slums in the city, by exploring the various possible & feasible models, in light of making city “Open Defecation Free” The SHWAAS project aimed to:

- Increase access to functional and well-maintained Community Toilets
- Establish house to house segregated garbage collection system & have organic waste management plant. (Biogas)

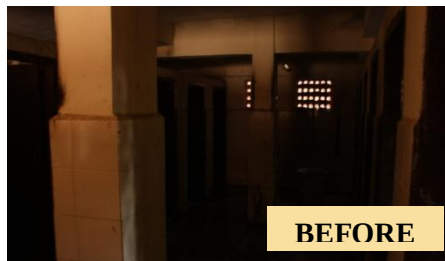

Model 2: Initiatives by Samagra

BEFORE

AFTER

BEFORE

AFTER

In its mission to provide toilet facilities in slums, the PMC in 2013 opted for the Samagra model, for construction/redesigning of 50 toilets in 15 slums in the city @ Rs. 1.8 crore supported by the Bill and Melinda Gates Foundation, by providing:

- Good design and effective management of community toilet blocks along with various value-added services.
- Effective BCC methods targeted at girls, children and the community
- Motivating and creating loo prenuers by training local entrepreneurs in cleaning methodology, maintenance and basic business principles
- Loo rewards wherein people were given reward points for using toilets and which could be redeemed at local shops

Sustainability:

Since appointing local caretakers is a part of the program and rewarding people in terms of redeemable points, sustainability of the infrastructure and the program is ensured.

Outcome:

So far 11 toilet blocks with 258 seats have been redesigned in 4 slums.

Model 3: Other initiatives in Sanitation

One Home -One Toilet

Ever growing slum population in the city increases pressure on the existing community toilet facility. Promoting household level toilets has its own advantage over community toilets, especially in slum households having space for its construction. The total allocation for the project for period 2013-2016 is two crore rupees (PMC contribution) for construction of 1500 household level toilet in slums in the city. Shelter Associates partnered with PMC and has constructed 2100 toilets till date.

Pune Pattern of Ladies Toilets

Toilet facilities for women in public places were severely inadequate, causing many hardships. In response to the public interest litigation filed by organization Milun Saryajani, against PMC, the High Court issued a writ mandamus directing the PMC to take various steps for providing adequate and proper toilet and urinal facility to females. The project mainly focuses on making available clean toilet facility and urinals across the city, especially for women.

Portable toilet Facilities

For convenience of tourists, devotees and other such floating population during important festivals and events in the city and especially for convenience of senior citizens and women, PMC ties up with private operators to provide high quality HDPE mains toilets. This goes a long way in keeping the city clean and reduces chances of open defecation and also reduces load on existing facilities.

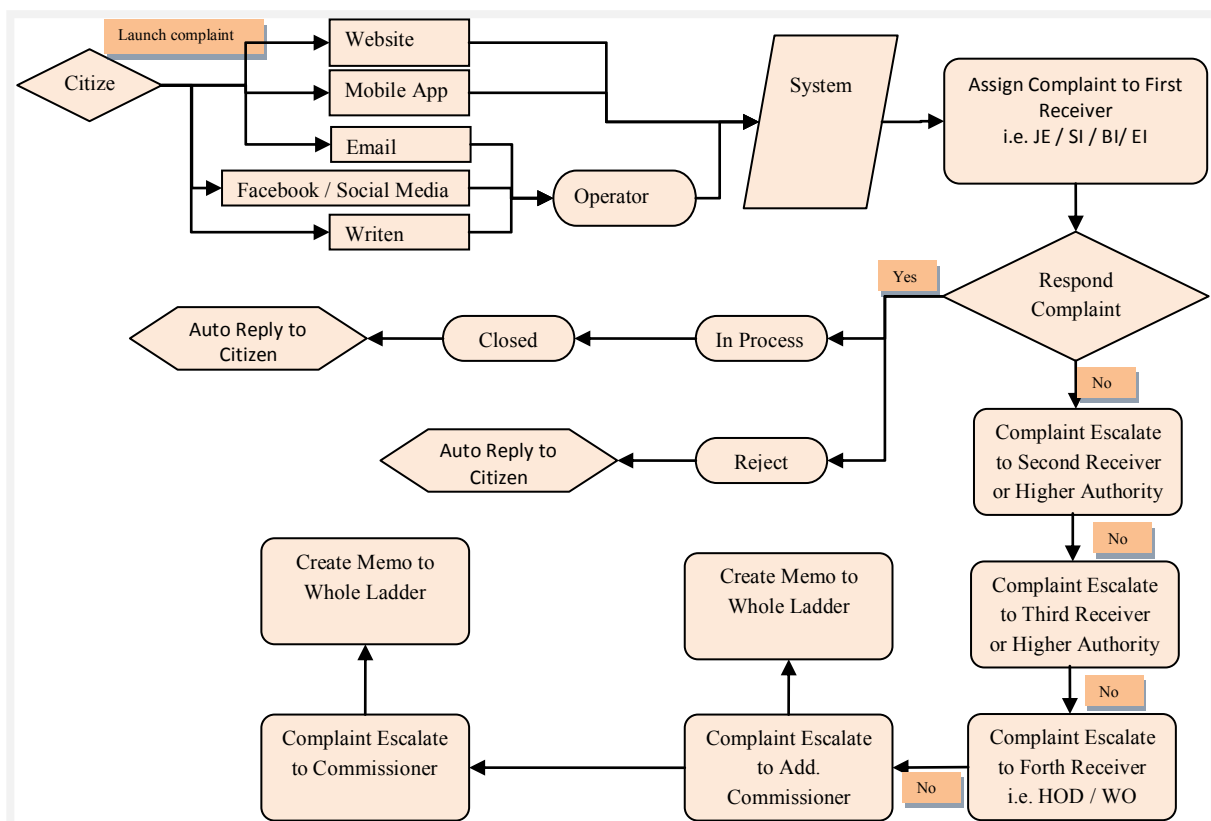

Toilet Construction under CSR initiatives

Corporate formed an integral part of this model. PMC joined hands with corporate houses to construct more than 100 toilets in PMC owned schools. It was a combination of financial and managerial assistance of corporate sectors addressing the issue of sanitation in Pune. Financial backup of corporate by way of construction of toilets, employee engagement in teaching residents and municipal staff about the best practices was sought. Pune is first city in the county who has received largest participation of Corporate as a part of CSR. In this model construction cost and maintenance costs are taken care of by the Corporate involved.

PART 2: Operable Online Grievance Redressal System

Initiated on 18th May 2015, PGR (Public Grievance & Redressal) system introduces transparency & accountability in the system. PGR is a system that enables citizens to register their complaints/suggestions with PMC.

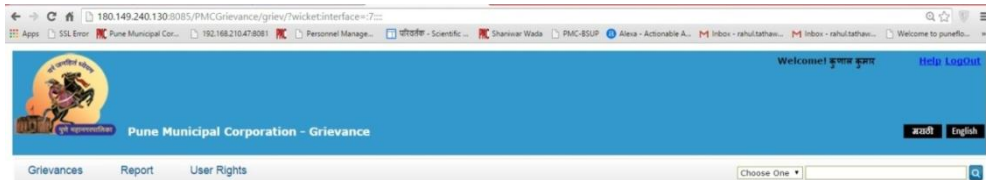

In this system it is easy to register complaints and track the complaint through lifecycle. Complaints are prioritized and assigned to appropriate official. It also provides structured feedback to the corporation and citizen on the nature of the feedback. Below is the flow diagram for E-governance Complaint Management System by which the complaints are addressed in PMC:

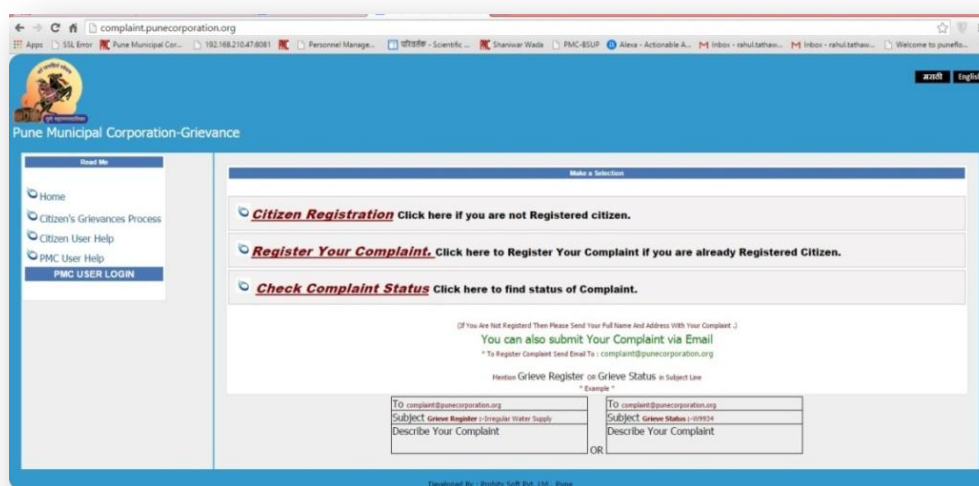

The statistics below gives the detail status on online public grievance redressal system at Pune Municipal Corporation; the same can be obtained online through the system:

PART 3: Monthly e-newsletter

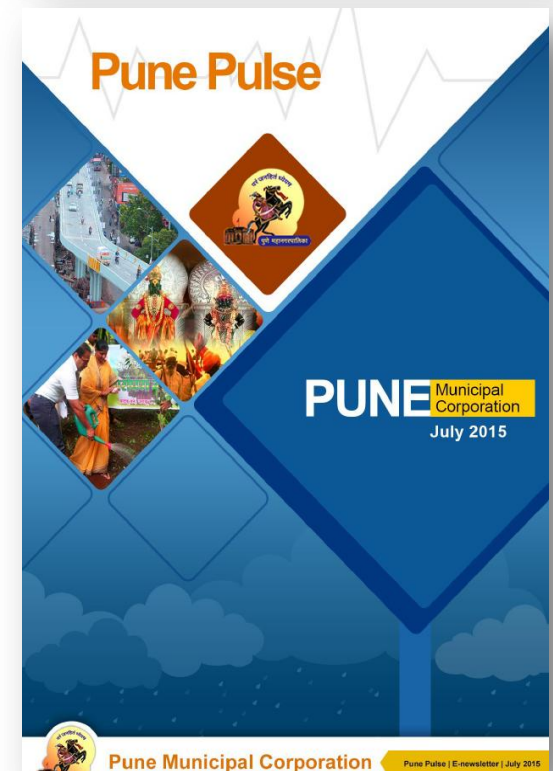

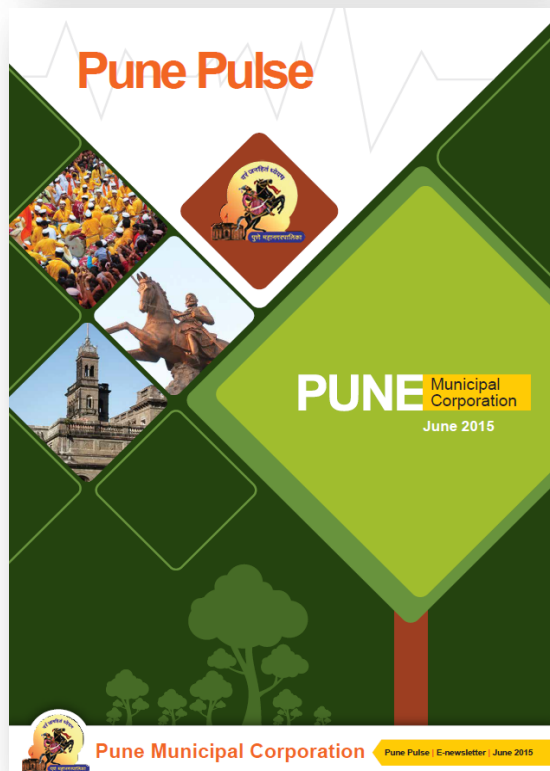

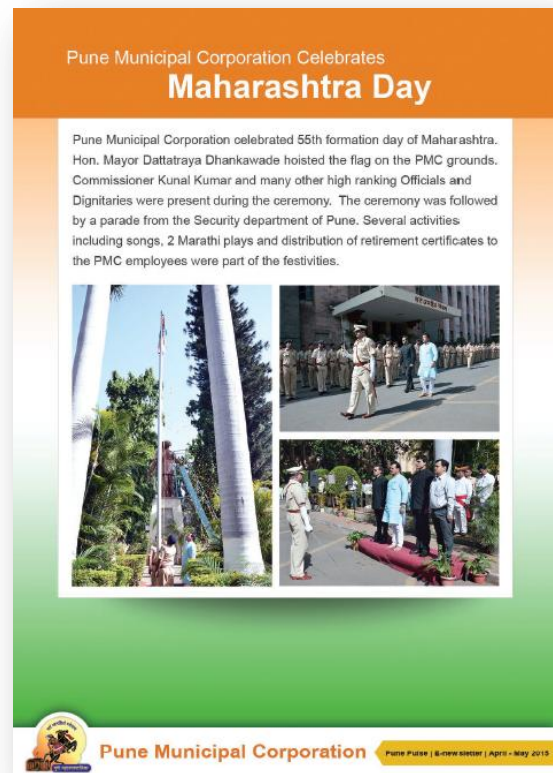

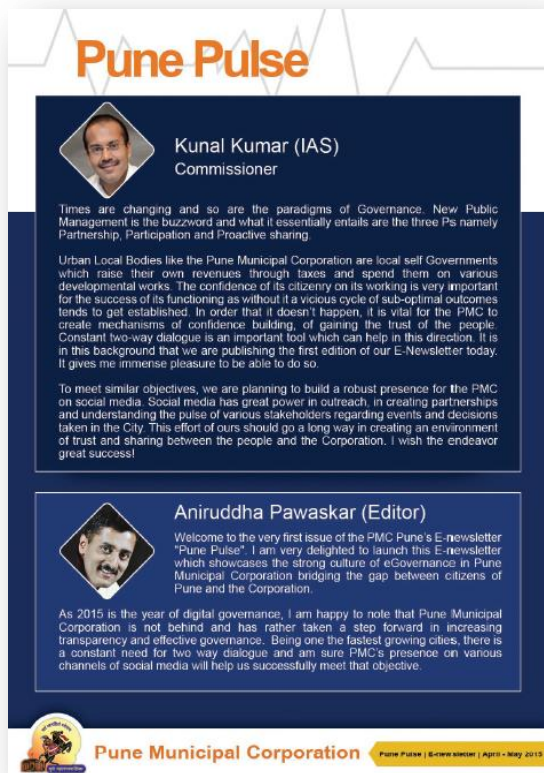

Pune Municipal Corporation has evolved over the year since its establishment and also Pune Municipal Corporation has taken proactive steps in sharing of information with the people. PMC is organization for the people, by the people and of the people. It is PMC's Endeavour to come closer to the citizen of Pune.

Taking a step further in the online and social media campaign, the Pune Municipal Corporation on 18th May 2015 launched its Face book page, e-newsletter and Instagram account. This is an attempt by the PMC to connect with more citizens and provide online services to the citizens and make the civic body accessible to the citizen 24X7.

“The PMC's account on Face book and Instagram and e-newsletter will be a direct bridge between the citizens and the civic body” – H'ble Mayor, Pune City.

PMC believe that the confidence of citizenry on its work is most important for success of its functioning. It is vital for PMC to create mechanism of confidence building of gaining the trust of citizen of people. It is in this background PMC has launched the E Newsletter in the name of “Pune Pulse” from May 2015.

Part 7: Levy of compensatory penalty for delays in service delivery

GoM in its GR Dated 23rd June 2015 has asked to incorporate 15 Mandatory online services, which PMC will be implementing from 14th July 2015, which are as follows:

1. Birth Certificate
2. Death Certificate
3. Marriage Certificate
4. Tax Certificate
5. No Dues
6. a. Transfer of (property) documents
b. Transfer of documents to successor
7. Zone Certificate (Building plan as per DP)
8. Plan Submission
9. Building Permission
10. Plinth Checking Certificate
11. Occupation certificate
12. Water Connection
13. Drainage Connection
14. Provisional NOC for fire brigade
15. Final NOC for fire brigade

Civic officials face fine for failing to act on time

UNDER RIGHT TO SERVICES ACT

Certificates	Time limit
■ Birth	3 days
■ Death	3 days
■ Marriage	3 days
■ No dues	3 days
■ Property tax	3 days
■ Section map	3 days
■ Zone	7 days
■ Fire NOC (primary)	7 days
■ Fire NOC (final)	15 days
■ Property transfers	15 days
■ Water connection	15 days
■ Occupancy	21 days
■ Building permission	60 days

Pune: The civic officials will now have to pay fine between Rs 500 and Rs 5,000 for failing to perform their duties under the Maharashtra Guarantee of Public Services Act 2015.

The Pune Municipal Corporation started implementing the provisions of the Act from Wednesday.

"Instructions have been given to the civic officials about the provisions in the Act. Staff members who fail to follow the rules will be fined, which can be deducted from their salaries," said Rajendra Jagtap, additional commissioner of PMC, while speaking to reporters.

The bill was passed on Monday at the state assembly. The government had introduced an ordinance in this regard.

As per the Act, the departments will have to provide services to the applicants within a given time period. Even if the application has to be rejected, it will have to be done within the prescribed period and the applicant should be informed accordingly. Applicants will get a unique application number which will help them in tracking the application.

The government has issued notification about it. It covers services like issuance of birth, death, marriage and income certificates. These will have to be provided within three days of application, said civic officials.

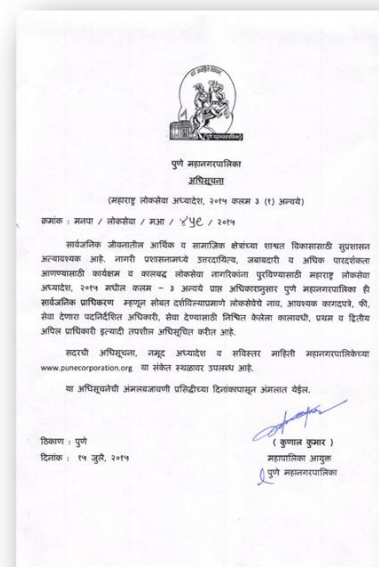

The PMC officials said that the applicant can file an appeal with the first appellate authority and then the second appellate authority in case he/she fails to get services within the given time period or is not satisfied with the services. The appellate authorities will also have to take decision in the prescribed time period.

Like provisions of state information commission in RTI Act, the government will establish Maharashtra State Right to Service Commission. It will hear the appeals in case applicant not satisfied with the appellate authorities.

Applicants will have to ensure that their application is accurate. There is a provision of action on the applicant, in case of wrong information or fake documents.

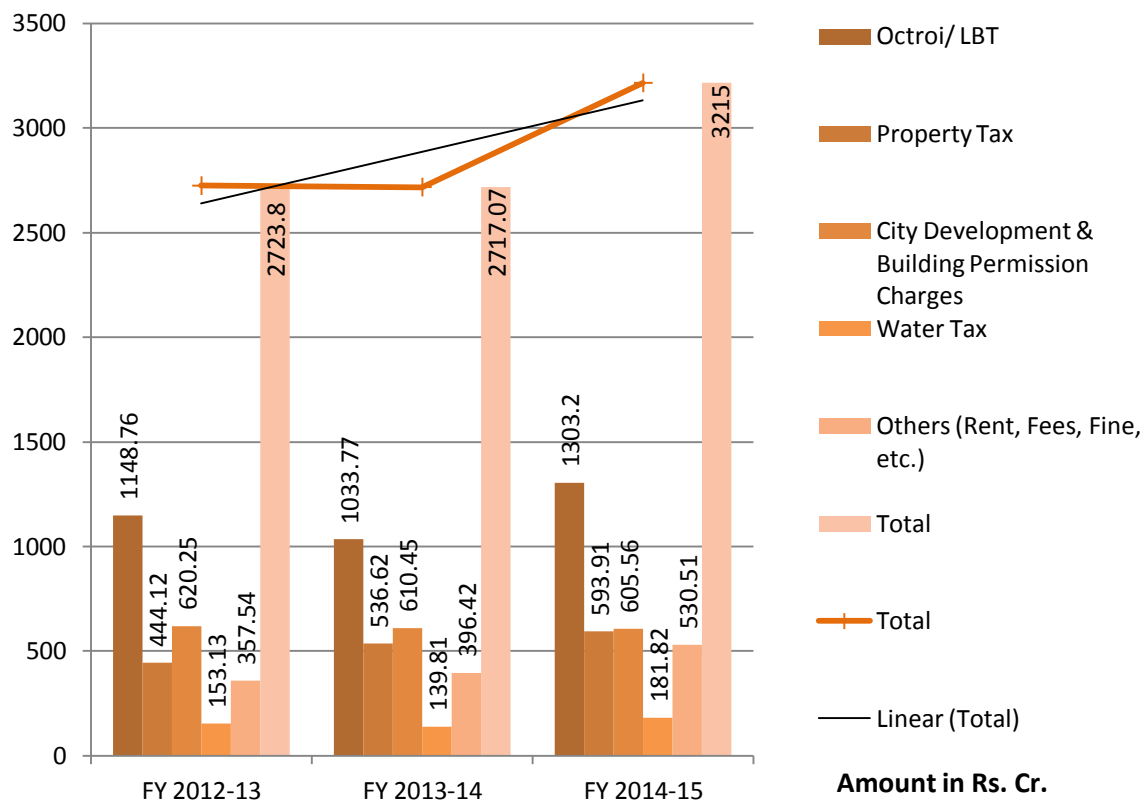

In case of services are provided before the stipulated time period, the officials will get cash incentives and awards.

Part 8: Collection of internally generated revenue (e.g. taxes, fees, charges) during the last three FYs (2012-15)

The trends in adjoining graphs show that Octroi / LBT has been the major source of revenue and till now the growth trend has been impressive. *Property Tax also has consistently contributed to the Tax Revenue corpus and shows fairly linear growth rate especially after PMC's initiatives towards e-governance.* The city development & permission charges are yet another major contributor towards revenue collection, which again has seen a tremendous impetus post application of Auto DCR & Fast track approval Systems as part of e-governance. Water Tax has contributed the least in the Tax Revenue but the growth rate indicates linear progress in the last financial year. This indicates that PMC has made appreciable achievement in fiscal decentralization.

Note:

1. Octroi was being levied till F.Y. 2012-13. In the Year 2013-14 L.B.T. has replaced octroi, but due for first year of L.B.T. collection it was Lesser than Octroi collection
2. The data regarding 2014-15 is Before Finalization of Accounts

Part 12: Percentage of operation and maintenance cost of water supply

Water charges for Domestic use were introduced from April, 2000. These user charges were linked with the Property and according to the property type water tax was collected. The expenditure for the FY 2014 on O&M of water supply is Rs. 232.02 Cr. (as in the table below). The collection of water supply service for the same FY is Rs. 212.89 Cr. Thus *the percentage of Actual collection vs Actual expenditure for O&M of Water Supply is 91.76%.*

Total O&M Expenditure for Water Supply Services for FY 2014-15

Sl	Component	Expenditure in Rs. Cr.
1	Salary	75.00
2	Electricity Charges	96.05
3	Raw Water Charges	28.72
4	Miscellaneous	31.34
5	Lubrication & Machinery	0.89
	Total O&M Expenditure	232.00

Total Collection for Water Supply Services for FY 2014-15

Sl	Component	Collection for Water Supply Services Rs. In Cr.
1	Total Collection	212.89
	% of Actual collection vs Actual expenditure for O&M of Water Supply	= 212.89/232.02 =91.76%

Office of Municipal Commissioner
Pune Municipal Corporation,
2nd Floor, Main Building, Shivajinagar
Pune-411005

Certificate

Part No 12 – Percentage of operation and maintenance cost of water supply

This is to certify that the Pune Municipal Corporation's total Expenditure toward O&M Cost of water supply for FY14-15 is Rs. 232.00 Cr is as per the table below:

Sl	Component	Expenditure in Rs. Cr.
1	Salary	75.00
2	Electricity Charges	96.05
3	Raw Water Charges	28.72
4	Miscellaneous	31.34
5	Lubrication & Machinery	0.89
	Total O&M Expenditure	232.00

And total collection of water Supply Services for FY 2014-15 is RS. 212.89 crores. Hence the percentage of Actual collection vs Actual expenditure for O&M of Water Supply is 91.76%.

 Municipal Commissioner
 Pune Municipal Corporation

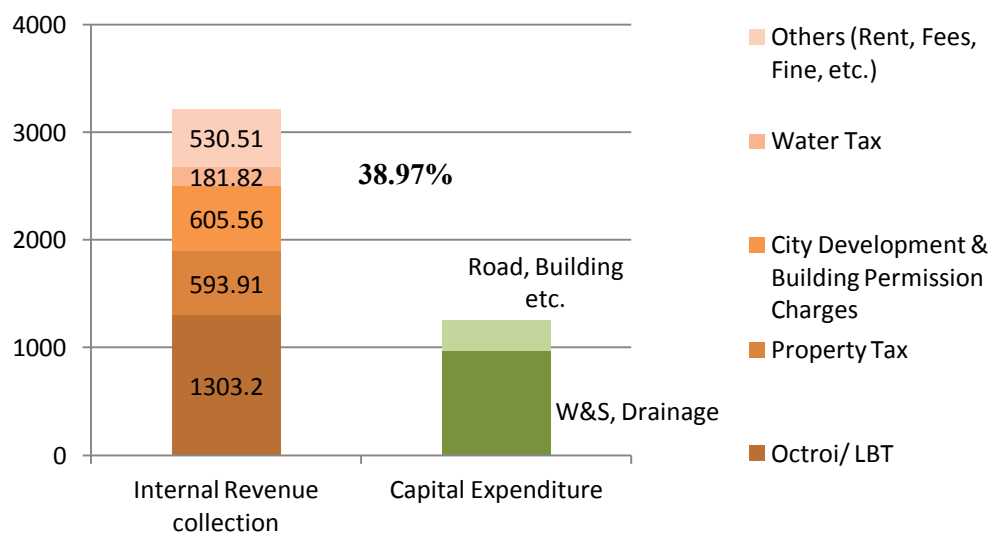

Part 13: Percentage contribution of internal revenue sources (self-generated) used for capital works during FY 2014-15

PMC has spent Rs. 1252.77 Cr. in FY 2014-15 on capital expenditure such as Road, Building, Water Supply & Sewerage, and Solid Waste Management Etc.

Capital Expenditure for FY 2014-15		
Sl	Expenditure Head	Amount in Rs. Cr.
1	Capital Expenditure A: Road, Building, etc	967.53
2	Capital Expenditure B: Water, Sewerage and Drainage	285.24
	Total	1252.77

Sl	Component	PMC's Actual Revenue for FY 2014-15 (Rs. In Cr.)
1	Octroi / LBT	1303.2
2	Property Tax	593.91
3	City development & Building permission charges	605.56
4	Water Tax	181.82
5	Others: Rent. Fees, Fine, etc.	530.51
	Total Receipt	3215.00
Hence the % contribution of internal revenue for capital works is 38.97%		

Contribution of internal revenue sources (self-generated) used for capital works during FY 2014-15 (Rs. In Cr.)
